

KESHAV MEMORIAL INSTITUTE OF TECHNOLOGY SMART INDIA HACKATHON 2020

P.S No: PJ240

Problem Statement: Development of a platform for dialing single emergency no SDC.

Team Name : Rakshak

Idea: With so many apps in the market, each for various emergency situations and different regions, our app aims to provide an emergency location tracking system that can be invoked in one click and send the information to the integrated disaster management server.

We also aim to provide data enrichment to show the analytics of emergencies reported and categorise them to take necessary precautions and mark danger areas.

Domain: Mobile App Development.

Technology Bucket: Mobile App development.

Features:
